

**IN TOUCH**  
**DEMONS & YOU**

**Dear Friend:**

**Since I never took the privilege of serving in the military, I know very little about strategic combat or war maneuver's. I have watched a lot of military shows during my life. F-Troop, Hogan's Heroes, and Gomer Pyle USMC. (I did not learn anything about warfare from them!). My favorite T.V. show of all time is M.A.S.H.**

**One thing about warfare I do know is...the most dangerous enemy is the one you ignore. We ignored military build-up in Japan and it cost us dearly. We did not ignore military build-up in Russia and Cuba and a war was averted. Spiritually you and I are in a war and if we ignore it (most Christians do) we will be wounded spiritually and maybe physically. Ignore the war often enough and long enough and I believe we become relationally separated from our Commander In Chief: God.**

**Who is our enemy? Make no mistake it is Satan and his army: demons. The duty of demons is to carry-out Satan's attacks, temptations and to take us out of our spiritual walk. They want us to have fear not faith and no communication with God. I have been asked more than once and will preach on it this Sunday: "Do demons have physical territories / geographical boundaries in which they roam?" Come and find out Sunday! I will give you a hint: there are a couple of places in scripture that would appear as if they do. One thing for certain: any geographical spot on earth you go to you will be tempted.**

**How can you and I defeat Satan and his demons? First, second, and third: pray, pray, pray! This is the number one weapon against Satan and his demons. What else should you do to defeat the enemy? Read Ephesians 6:10-18 and put on the full armor of God. For a full message about demons and their warfare (and our victory plan) come to church this Sunday!**

**In Christ's Love,**

**Pastor Mike**
