GOD'S SUPERNATURAL SUPPLY

Dear Friend:

Do you have a scarcity mindset? Do you know what I mean when I say that? Christians and non-Christians alike can have a scarcity mindset. A scarcity mindset thinks: "Oh, I'll never have enough, I may get by but that's the best I'll do". People with a scarcity mindset focus on what they do not have rather than thinking about what they do have. This is understandable from a non-Christian's point of view – they don't have Philippians 4:19 to claim or all the other 100's of verses that are promises of God's supernatural supply. The Christian, on the other hand, has no excuse for a scarcity mindset, other than a lack of faith or the lack of knowledge of the scriptures. Allow me to share three "laws" of the supernatural supply that God gives to all who follow him.

Law # 1: Bid farewell to the scarcity mindset. Tell the devil you follow God and God promises to supply all your needs (Philippians 4:19). God also promises that we will have all that we need in 2 Corinthians 9:8. **Law #2:** Focus on God's limitlessness, not on your limitations! God is omnipotent – that's a big word for: God has all power! As I write this Russia is invading Ukraine. Russia can do this because they are the big bully on the block. They are powerful, but God is more powerful than all the armies on earth combined. Call on God's power to supply your needs and to give you any strength you need. **Law #3:** Extend your spiritual comfort zone. Step out of your usual spiritual routine and dare to do something that takes more faith than you normally have. Do this and you will see God's supernatural supply. In Christ's Love, Pastor Mike
